

# Gigantic BFG Ears!

*They're crazy. They're bonkers.  
They're utterly enormous.  
They're BFG ears!*

## What You Do:

**1.** Draw a straight line to mark off roughly one third of the paper plate. Now draw a 4cm-wide rectangle starting from the middle of the line and extending to the edge of the plate.

**2.** Cut around the lines, leaving the rectangle joined to make a tab. Round off the corners to create an ear shape. Now use this shape as a template to make another ear.

**3.** Cover the tabs in glue. Wrap them tightly around either side of a hair-band and press them down onto the front of the main ear shapes. Hold them in place as the glue dries.

**4.** To make the BFG's hair, cut five short pieces of string. Glue the ends of the string onto the top of the hair-band so that they point upwards. Leave the glue to dry.

**5.** Mix some paint to match your skin tone. Paint one side of the ears and band and leave to dry. Turn them over and paint the other side. Now paint the hairs brown.

- ### What You Need:
- 2 paper plates
  - pen or pencil
  - ruler
  - scissors
  - glue
  - hair-band
  - string
  - paints in various colours
  - paintbrush
